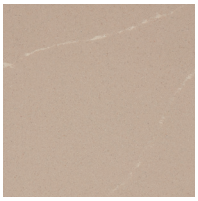
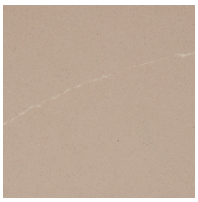
JAVA BEIGE HONED

DELLA TERRA® QUARTZ





PRODUCT TYPE
Quartz

STOCKED SIZE
3/4″ (2cm slab)
1-1/4″ (3cm slab)

STOCKED SLAB SIZE
126″ × 63″

RECOMMENDED USES
Commercial
Residential
Interior Countertops
Interior Wall
Shower Walls

Java Beige Honed is a beautiful mid-tone warm neutral color with fine white veins. The light veining gives the quartz some visual interest and gives it the appearance of a natural marble or limestone. Java Beige Honed has a clean look and compliments a variety of installations. The Della Terra® Quartz, a natural quartz surface, is a blend of nature and technology. It consists of up to 94% quartz, one of the hardest minerals in nature. Color controlled quartz is blended together with technologically advanced polymers. Della Terra® Quartz surfaces are ultra-durable, resistant to scratches and chipping, plus its dense composition makes it highly resistant to staining. Della Terra® Quartz should be used for interior surfaces only.

Honed quartz countertops can show residue from use and cleaners, especially under strong light sources. The matte finish and increased texture, trap marks and streaks, making them more visible compared to the smoother surface of polished quartz. Usually, these marks can be removed with approved scrubs or cleaners. Polished finishes, however, offer extra protection. The polishing process crystallizes the material and smooths out most of the inherent micro pores, making the surface less susceptible to blemishes, and easier to maintain.

During fabrication, it is recommended to use denatured alcohol rather than acetone to clean quartz slabs. However, if acetone is used, it should first be applied with a rag, wiping on and off immediately.
