Indian Premium Black is cross-referenced as Absolute Black and is quarried in a boulder quarry near the town of Warangal in the state of Andhra Pradesh, India. The size and color of each block is fairly consistent between the slabs and tile and will have minimal variation. Because it is such a dense stone, and there are minimal micro fissures and pitting, no resin is applied to the surface. Arizona Tile offers Indian Premium Black in both polished and honed finishes to help accentuate any design. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As a natural stone product it is recommended that it be sealed to extend its longevity.

This granite is also known as Absolute Black, Jet Black, or Luna Nero.
