Viscount White Granite is quarried from a bedrock quarry in India. The gray/black veining in Viscount White will change within the block. It's possible for some slabs to have heavy black veins while other slabs from the same block do not. This granite can be used for exterior BBQ's as well as exterior cladding projects. Due to the qualities of the stone, the slabs are bookmatched; meaning slab one and slab two will be cut and polished to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. As a natural stone product, it is recommended that this be sealed to extend its longevity.
