

**STONE TYPE**

Limestone

ORIGIN

Turkey

FINISH

Honed

RECOMMENDED USES

Commercial
Residential
Interior Floor
Exterior Floor
Countertops
Interior Floor
Exterior Cladding
Fireplaces
*Showers

SIZES

3/4" (2cm slab)
12"x24"x3/8"

*When installed in interior wet areas, the product must be sealed and maintained properly. If it is not, the appearance of the product could be altered. Please contact your installer or sales representative for more information.

Gobi is quarried from a bedrock quarry. It is dense, which makes it suitable for Interior and Exterior applications. This is a sedimentary stone that is formed in shallow seas and is composed mainly of calcite calcium carbonate. This cream/beige limestone can have small black or gold spots randomly scattered throughout the slab. Arizona Tile also offers Gobi in 12"x24" tile. As a natural stone product it is recommended that it be sealed to extend its longevity. Gobi is great for large projects as the color tone and overall look remain consistent from shipment to shipment. However, when using Gobi tile and slab on the same project, it is best to view them before installation.
