12"x24"x3/8" Renaissance
12"x24"x1-1/4" Pool Coping
18"x36"x3/8" Renaissance
Tumbled Lyon Pattern

Salem Grey Honed is quarried near Afyon, Turkey. It is dense, which makes it suitable for Interior and Exterior applications. This is a sedimentary stone that is formed in shallow seas and is composed mainly of calcite calcium carbonate. One of the unique characteristics of this limestone is the existence of some small shells and fossils that may appear throughout the tile or slabs. There will be noticeable variations in color and movement between pieces. Arizona Tile also offers Salem Grey in several tile finishes and sizes. As a natural stone product it is recommended that it be sealed to extend its longevity.

*When installed in interior wet areas, the product must be sealed and maintained properly. If it is not, the appearance of the product could be altered. Please contact your installer or sales representative for more information.
