Calacatta Setai Honed is a white marble quarried in the Apuan mountain range near Carrara, Italy. The Setai quarry opened halfway through 2020 and the supply of blocks will be limited until the quarry can fully open in late 2021. Soft grey veins accompany occasional hints of gold veining, giving this calacatta marble a sophisticated look and feel. Due to the qualities of the stone, the slabs are book-matched; meaning slab one and slab two will be cut and honed to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. Finally, a mesh backing is adhered to the back of the stone to ensure safety while handling and fabricating the slab. As a natural stone product it is recommended that it be sealed to extend its longevity.
