

ARIZONA TILE

MOUNTAIN WHITE

**STONE TYPE**

Marble

ORIGIN

Vermont, USA

FINISH

Polished

RECOMMENDED USES

Commercial & Residential

Interior

Floor & Wall

Backsplashes

Countertops

Fireplaces

Tub Surrounds & Showers

Vanities

SIZES

3/4" (2cm slab)

1-1/4" (3cm slab)

Mountain White is quarried from a gallery quarry in Danby, Vermont, USA. This Vermont White marble has a tight structure and is one of the most dense, white marbles in the market. The quarry, which is just outside Danby, Vermont, was opened over 100 years ago. From this quarry Arizona Tile offers Imperial Danby (Calacatta Sunrise), Eureka Danby (Calacatta Mist), Montclair, Royal Danby, Olympian White (Crystal Stratus), Sterling Sky and Mountain White. There are three entrances into the mountain. This gallery quarry is the longest of its kind in the world at more than 1-1/2 miles deep. Another unique thing about this quarry is that the factory was built inside the mountain; therefore, there is no need to move the blocks off site for slab production. Due to the qualities of the stone, the slabs are book-matched; meaning slab one and slab two will be cut and polished to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. As a natural stone product it is recommended that it be sealed to extend its longevity.

NSF indicates this product conforms to the requirements of NSF/ANSI Standard 51, thereby meeting the health and sanitation requirements for materials used in areas in a Splash Zone, effective December 9, 2009.

Product selection varies at each location. Please contact your local Arizona Tile for product availability.
Please view actual stone when making your selection, as the images on this page are only representative.
