RECOMMENDED USES

Commercial & Residential Interior
Countertops & Vanity Tops
Backsplashes
Tub Surrounds & Showers
Lavatories & Public Restrooms
Contract Furniture

Conference Tables
Reception Desks
Walls
Displays & Fixtures
Window Sills & Wall Caps
Food Service/Beverage Counters

Della Terra® Quartz, a natural quartz surface, is a blend of nature and technology. It consists of up to 94% quartz, one of the hardest minerals in nature. Color controlled quartz is blended together with technologically advanced polymers. Della Terra® Quartz surfaces are ultra-durable and resistant to scratches and chipping. Its dense composition also makes Della Terra® Quartz highly resistant to staining. During fabrication, it is recommended to use denatured alcohol rather than acetone to clean quartz slabs. However, if acetone is used, it should first be applied with a rag, wiping on and off immediately. For more information, including recycled content and certifications, please refer to the next page or visit our website at www.arizonatile.com.

*Factory recommends sealing honed and brushed quartz slabs with a water based sealer, to help with the ease of daily maintenance.

Small white spots, approximately the size of pencil erasers, are common on the Rodi and Grigio Nube slabs. This is not a defect and is a regular part of these slab colors. Please view actual sample when making your selection as the images on this page are only representative.

*Metropolis Quartz, is a man-made product that emulates concrete. Unlike other quartz slabs, each Metropolis slab is unique in its characteristics and appearance. Because of this, we recommend viewing full slabs, prior to installation, and not just from sample pieces. *Factory recommends sealing honed and brushed quartz slabs with a water based sealer, to help with the ease of daily maintenance.
