Lyskamm is an Italian-made, white quartz with a diffused grey pattern throughout. This subtle detailing gives Lyskamm an organic appearance, emulating the look of natural marble. Della Terra® Quartz, a natural quartz surface, is a blend of nature and technology. It consists of up to 94% quartz, one of the hardest minerals in nature. Color controlled quartz is blended together with technologically advanced polymers. Della Terra® Quartz surfaces are ultra-durable, resistant to scratches and chipping, plus its dense composition makes it highly resistant to staining. During fabrication, it is recommended to use denatured alcohol rather than acetone to clean quartz slabs. However, if acetone is used, it should first be applied with a rag, wiping on and off immediately. Please note that textured finishes can require more daily maintenance than polished surfaces. This can be more apparent with darker colors. For more information, including recycled content and certifications, please visit our website at www.arizonatile.com.
