METROPOLIS DARK

**PRODUCT TYPE**

Quartz

SIZES

3/4" (2cm slab)

1-1/4" (3cm slab)

SLAB SIZE

126"x61"

RECOMMENDED USES

Commercial

Residential

Interior Floor

Countertops

Interior Wall

Showers

Metropolis Dark is an Italian-made quartz. With small, charcoal grey and white flecks on a deep, slate grey background, the overall tone and textured finish of this material gives Metropolis Dark a concrete-like appearance. Della Terra® Quartz, a natural quartz surface, is a blend of nature and technology. It consists of up to 94% quartz, one of the hardest minerals in nature. Color controlled quartz is blended together with technologically advanced polymers. Della Terra® Quartz surfaces are ultra-durable, resistant to scratches and chipping, plus its dense composition makes it highly resistant to staining. During fabrication, it is recommended to use denatured alcohol rather than acetone to clean quartz slabs. However, if acetone is used, it should first be applied with a rag, wiping on and off immediately. Please note that textured finishes can require more daily maintenance than polished surfaces. This can be more apparent with darker colors. For more information, including recycled content and certifications, please visit our website at www.arizonatile.com.

* Metropolis Quartz is a man-made product that emulates concrete. Unlike other quartz slabs, each Metropolis slab is unique in its characteristics and appearance. Because of this, we recommend viewing full slabs prior to installation, and not just from sample pieces.

* Factory recommends sealing Metropolis quartz slabs with a solvent based sealer, to help with the ease of daily maintenance.
