This beautiful collection was inspired by the early Spanish artisans that made handcrafted, handmade cotto pavers and decorative pieces as accents. The Seville Collection may look the same, but these porcelain based decos and listelles can be used in any application as they have protective glazes and compounds to enhance their durability without affecting their appearance. Don't be afraid to use these accents anywhere, from floors to pool, from residential to commercial. Use your design ideas to enhance any tile or stone you like.
