Commercial & Residential  
Interior  
Floor

Composed of several natural stone products, these medallions are a wonderful option to enhance any setting. There can be noticeable variances in the stones, so it is important and recommended that the medallion is viewed before finalizing a purchase. The mosaic medallions are mesh-mounted and 3/8" thick. It is recommended to use latex modified thin set when installing these medallions. The stone on the water-jet medallions is 1/8" thick. They are aluminum-backed, therefore the total thickness of the medallion is 1/2". It is recommended to use epoxy when installing these medallions.
