

INDIAN PARANA

STONE TYPE

Granite

GEOLOGICAL ERA
Archean-Proterozoic
(544-2500 million years ago)
FINISH

Polished

RECOMMENDED USES

Commercial & Residential

Interior & Exterior

Floor & Wall

Backsplashes

Countertops

Fireplaces

Tub Surrounds & Showers

Vanities

ORIGIN

Tamil Nadu, India

SIZES

12"x12"x3/8"

3/4" (2cm slab)

1-1/4" (3cm slab)

Indian Parana is quarried in a bedrock quarry near the town of Madurai, in the state of Tamil Nadu, India. It is possible for this granite to have some green tones, while others may show more of the rust tones. Coloring will vary between shipments. Due to the qualities of the stone, the slabs are book-matched; meaning slab one and slab two will be cut and polished to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. During the polishing process, an epoxy resin is applied to the surface of the stone to fill in any natural pits, cracks or fissures that may exist. This does not affect the durability, maintenance or beauty of the stone. It is possible for some of the more minute pits that are too small to effectively hold the resin, to reopen during other finishing stages. However, this will not detract from the overall quality or appearance of the stone. As a natural stone product it is recommended that it be sealed to extend its longevity.

NSF indicates this product conforms to the requirements of NSF/ANSI Standard 51, thereby meeting the health and sanitation requirements for materials used in areas of food preparation.

SIZE	PIECES/BOX	SF/BOX	UNITS/PALLET	SF/PALLET
12"x12"x3/8"	10	10	36 boxes	360
