

# VERDE UBATUBA

**STONE TYPE**

Granite

**FINISH**

Polished

**ORIGIN**

Espirito Santo, Brazil

**SIZES**

12"x12"x3/8"

3/4" (2cm slab)

1-1/4" (3cm slab)

**GEOLOGICAL ERA**

Precambrian

(2500 million years ago)

**RECOMMENDED USES**

Commercial &amp; Residential

Interior &amp; Exterior

Floor &amp; Wall

Backsplashes

Countertops

Fireplaces

Tub Surrounds &amp; Showers

Vanities

Verde Ubatuba is quarried from a bedrock quarry in Espirito Santo, Brazil. It is composed mainly of dark green medium to large crystals. After the blocks are cut into slabs, oxidation starts to take place, which produces the brown spots that may be visible in this stone. During the polishing process, an epoxy resin is applied to the surface of the stone to fill in any natural pits, cracks or fissures that may exist. This does not affect the durability, maintenance or beauty of the stone. It is possible for some of the more minute pits that are too small to effectively hold the resin, to reopen during other finishing stages. However, this will not detract from the overall quality or appearance of the stone. As a natural stone product it is recommended that it be sealed to extend its longevity.

NSF indicates this product conforms to the requirements of NSF/ANSI Standard 51, thereby meeting the health and sanitation requirements for materials used in areas of food preparation.

SIZE	PIECES/BOX	SF/BOX	UNITS/PALLET	SF/PALLET
12"x12"x3/8"	10	10	42 boxes	420
