

CREMA MARFIL

STONE TYPE

Marble

FINISH

Polished

ORIGIN

Novelda, Spain

SIZES

12" x 12" x 3/8"

18" x 18" x 5/8"

3/4" (2cm slab)

1-1/4" (3cm slab)

GEOLOGICAL ERA

Jurassic

(144-206 million years ago)

RECOMMENDED USES

Commercial & Residential

Interior & Exterior

Floor & Wall

Backsplashes

Fireplaces

Tab Surrounds & Showers

Vanities

Crema Marfil is quarried from a bedrock quarry in a mountain range near Novelda, Spain. Arizona Tile carries two selections of Crema Marfil including Crema Dorado, which is available only in tile. Characteristically, Crema Marfil has less veining and a clearer background color, while Crema Dorado visibly, has more veins and fill. Crema Marfil is also a softer stone, and may be susceptible to scratching or abrasion. It is a common characteristic for this stone to have voids in the raw material. Before it reaches the polishing stages, these voids are filled with a polyester resin. Depending on how deep the void is, the resin may shrink as it dries, leaving the surface of the filled area slightly lower than the rest. This does not affect the durability, maintenance or beauty of the stone. Arizona Tile also offers Crema Marfil as a product in our tumbled program, which will offer a multitude of mosaics and tile sizes that will provide a more unique style to any design. As a natural stone product it is recommended that it be sealed to extend its longevity.

NSF indicates this product conforms to the requirements of NSF/ANSI Standard 51, thereby meeting the health and sanitation requirements for materials used in areas of food preparation.

SIZE	PIECES/BOX	SF/BOX	UNITS/PALLET	SF/PALLET
12" x 12" x 3/8"	10	10	36 boxes	360
18" x 18" x 5/8"	5	11.25	160 boxes	360

Standard packaging quantities are noted above, but variances may occur.
