18 × 36 × 1/2

RECOMMENDED USES

Commercial
Residential
Interior Floor
Exterior Floor
Interior Wall
Exterior Cladding
Fireplaces
Showers
Shower Floors
Pool and Spa (Waterline)

Ege Royale is a cream toned marble quarried from a bedrock quarry in Turkey. It has occasional patterns of light cream, accenting the material in various shapes throughout, while its beige and taupe tones give this material a dramatic look. Though subtle, Ege Royale's pattern is versatile enough to be used in many types of design combinations while adding unassuming flair. The slip resistant sandblasted finish also lends itself to be an excellent application in wet areas and on pool decks. There can be noticeable variances between pieces, so it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As a natural stone product, it is recommended that this be sealed to extend its longevity.
