Skyline is a marble tile that is part of the Completa Series. It is a warm toned marble with variations of cream, taupe and brown throughout. Its striking color variations add visual interest while remaining neutral enough to be used in a variety of designs. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As natural stone products, it is recommended that these be sealed to extend their longevity.
