Terra Nova is a marble tile that is part of the Completa Series. It is a neutral toned, cream marble with subtle organic details throughout. Its clean yet rich organic details make it neutral enough to be used in a variety of installations. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As natural stone products, it is recommended that these be sealed to extend their longevity.
