White Truffle is quarried from a bedrock quarry in Turkey. This marble has a white background color with gray details, and adds a dramatic and elegant touch to any installation. When installing white marble, you must use a white thinset, using grey thinset will leave trowel lines and could stain the marble. This marble may also have tiny pin holes and small voids that are filled with polyester resin. As a natural stone product it is recommended that it be sealed to extend its longevity. Additionally, it is important to note that when using the White Truffle tile and slab on the same project, customer approval is required.
