Backsplashes
Fireplaces
Tub Surrounds & Showers

The Stainless Steel Mosaics are metal tiles on a porcelain body. The metal used is Stainless Steel. This well-known and practical metal can be used to add a design element to any vertical surface, from contemporary to rustic. These mosaics are available in four options. Due to variation in color and shading, it is important and recommended that a range of this product be viewed before finalizing a purchase. When installing these mosaics, it is recommended to use a latex-modified thinset. Due to the metal nature of these products, the appearance of small dents and scratches is inherent. To avoid scratching the metal, it is recommended to use a non-sanded grout and to avoid abrasive cleaners. Additionally, these mosaics should not be cleaned with a cleanser that has acidic content, as the acid may cause a change in the color of the metal. It is not recommended to install these mosaics in areas fully submerged in water, such as fountains or pools.

SIZE	PC/BOX	SF/BOX	BOXES/PALLET	QUANTITY/PALLET
Arabesque Mosaics	10	N/A	45	450
2"x6" Brick Mosaics	10	N/A	36	450
