Available in natural stone combinations, these basketweave mosaics combine the simplicity and beauty of various color tones. A mesh backing is adhered to the back of each mosaic. There will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. As natural stone products, it is recommended that these be sealed to extend their longevity. When installing any of the four options with white stone, you must use a white thinset. Using a grey thinset will leave trowel lines and could stain the stone.
