### P.E.I. RATING: N/A

FROSTPROOF: Yes

D.C.O.F. WET: ≥0.42 (matte)

When installing rectangular or square tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.

The Architecture Series is a product line that is specifically designed for commercial applications. It is available in a plethora of colors and sizes. The Architecture series is suitable for both dry and wet or humid rooms. It is great for all applications from the most original building of modern architecture to the restoration of classic buildings. Architecture is ideal for high traffic applications and can withstand significant physical-chemical stress.

DCOF rating is a measurement of a tile's frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.

Standard packaging quantities are noted above, but variances may occur.

Please view actual material when making your selection, as the images on this page are only representative.
