The Canyon Series is a porcelain tile. Because this material is a porcelain product, maintenance risks involved with actual stone are eliminated, while the beautiful visual characteristics of stone are sustained. It is available in three, earthy hues. Canyon is available in a single size, a surface bullnose, and a 2"x2" mosaic. The 2"x2" mesh-mounted mosaic is available for each color, as well as blend of all three colors. This series is suitable for residential and light commercial applications.
