The Kulture Series is a glazed porcelain that is produced to emulate a rustic natural stone. Because this material is a porcelain product, minimal maintenance is required, while sharing similar, beautiful visual characteristics of a natural stone. It is available in three rich, earthy hues, each of which provides high tonal contrasts between pieces, imitating the exceptional qualities of stone. There will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. With its unique characteristics, this tile will provide a rustic appearance to any installation. Kulture is available with a complete list of trim and a multitude of sizes. This series is suitable for residential and commercial applications.
