*DCOF Rating is a measurement of a tile's frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.

Casalgrande Padana is a product line that is specifically designed for commercial applications. It is available in a number of series with a plethora of colors and sizes. The PN-Basaltina series is suitable for both dry and wet or humid rooms. It is great for all applications from the most original building of modern architecture to the restoration of classic buildings. Casalgrande Padana PN-Basaltina is ideal for high traffic applications and can withstand significant physical-chemical stress.

When installing rectangular tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.
