The Concerto series offers a wide array of neutral and smoky color hues. This color palette lends itself beautifully to many styles of design. Due to the breadth of color offerings, this series can be used in combination with natural stone or other tile series, including glass tile. Colors within the series can also be combined to create a customized and cohesive tile design. It is available in seven colors, all available in both a glossy and matte finish. A pencil bullnose trim piece is available and adds flexibility in application.

Piece to piece variation in shade or color are inherent in all fired clay products; therefore, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. This series is suitable for residential and commercial applications.
