The Dome series is a color body porcelain. It is the synthesis of digital technology applied to aesthetic research. Contemporary or classic ambiances are imbued by the vibrant surface colors of a collection that excels due to a strong personality as well as a high versatility. The multicolor shades and contrasts of light offer total freedom to create an array of tiling patterns. Because this material is a porcelain product, minimal maintenance is required. Dome is available in two sizes, a 2" x 2" mosaic and a surface bullnose. It is available in four colors. When mixing sizes within a series, shade, texture and calibration differences should be expected.

When installing rectangular or square tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.
