The H-Line ceramic series offers a wide array of neutral and smoky color hues. The research and development that led to the creation of this color palette is apparent. Due to its breadth of color offerings, this series can be used in combination with natural stone or other tile series, including glass tile. It is available in eight colors, with two of the colors offered in two finishes. The two sizes, 4" x 16" and 3" x 6", provide flexibility in application and are supported with a full line of trim.

Manufacturer recommends that the offset should not exceed 33%.

Sometimes it's the simple things that make the biggest impact; an impeccably produced trim collection is one of those things. These trim pieces are the perfect complement and are available in colors to coordinate with the wall tiles. The trims are produced and glazed in the same factory as the field tiles, minimizing the normal variation in dye lot colors. Trim it out to put a finishing touch on your installation.
