Please contact your sales representative or any Arizona Tile location for more details.

*Stocked in Argento, Carbonio, Iridio and Platino

**Tiles are randomly placed on mesh. A one-directional pattern is available by request.

Metalwood is a product line that is specifically designed for commercial applications. It is available in a number of colors and sizes. The Metalwood series is suitable for both dry and wet or humid rooms. It is great for all applications, from the most original building of modern architecture to the restoration of classic buildings. Casalgrande Padana Metalwood is ideal for high traffic applications and can withstand significant physical-chemical stress.

When installing rectangular or square tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.

DCOF rating is a measurement of a tile's frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.

Standard packaging quantities are noted above, but variances may occur.

Please view actual material when making your selection, as the images on this page are only representative.
