Arizona Tile: Opening of Quartz Distribution Location

Arizona Tile announces the opening of its newest facility: Tempe Quartz Distribution. This facility houses corporate office spaces for eight departments and nearly 100,000 square feet of space solely dedicated to quartz storage.

Arizona Tile: Tempe Quartz Distribution

Largest in the State

At an impressive 120,000 square feet, Arizona Tile's Tempe Quartz Distribution center is the largest quartz slab facility in Arizona. The new facility and its adjacent Slab Outlet, plus the existing Tempe location, encompass 22 acres in total. While the bulk of the square footage in the new facility is used for storing endless selections of quartz products, there is ample space for Trade Show setup, sample board production, and bulk stock of porcelain tile.
