## New Porcelain Products

[Arizona Tile](#) has released many new porcelain tile products this year. Three of these are the Marrakesh, Sav Wood, and DigitalArt series. Although each series has its own unique design style, all three of these releases are made of durable porcelain or ceramic material. Because of their durability and range of style, these three products are suitable for a plethora of applications.

Made to look like hand-painted tiles, the new [Marrakesh](#) series brings an element of warmth to any space. Marrakesh is offered in either a ceramic or porcelain material (depending on the finish), so unlike a hand-painted tile, the image you see will not wear off. Available in Grey and Color mixes, Marrakesh is an 8" x 8" tile that can be used in a seemingly endless array of applications.

Available in five colors, the [Sav Wood](#) series is a porcelain product that brings the warmth of natural wood to any application. It's porcelain body makes Sav Wood extremely easy to care for and maintain. This exceptionally durable product is suitable for both residential and commercial applications. Offered in an 8" x 32" tile, Sav Wood brings the classic look of wood flooring to any space, and works well in virtually every design.

# ARIZONA TILE

[DigitalArt](#) is a heavily textured porcelain tile that radiates the luxe look and feel of fabric while providing the easy maintenance of a solid surface. The durability of porcelain makes DigitalArt an ideal product for almost any application. Digital Art is available in 12"x24" and 24"x24" tiles with five solid colors, as well as one Mix Deco.
