Calacatta Setai Honed is a white marble quarried in the Apuan mountain range near Carrara, Italy. The Setai quarry opened halfway through 2020 and the supply of blocks will be limited until the quarry can fully open in late 2021. Soft grey veins accompany occasional hints of gold veining. If you are using slab and tile on the same project, you will need to approve the color tone before installation. When installing white marble, you must use a white thinset. Using grey thinset will leave trowel lines and could stain the marble. This product will change from shipment to shipment; therefore, customer approval is required. As a natural stone product it is recommended that it be sealed to extend its longevity.
