(DCOF applies to porcelain mesh mounts only, excludes wall tile 2 x 12 & Scallop)

## P.E.I. RATING: 4 (porcelain)

FROSTPROOF: Yes (porcelain)

The S-Series tile is a versatile collection with classic shapes and colors which are ideal for a variety of beautiful installations. The 2 x 12 ceramic tile and the Scallop Mesh (raised design) are for wall use only. All shapes and sizes of the mesh mounted products are 6mm porcelain tile and can be installed on a wide variety of surfaces. The 1" Hex Mesh is available in matte finish only in 3 colors (see pg 2 for details).

Piece to piece variation in shade or color are inherent in all fired clay products; therefore, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. When mixing sizes within a series, shade, texture and calibration differences should be expected. This series is suitable for residential and commercial applications. Because these products are all porcelain or ceramic, minimal maintenance is required.

S-Black/Canvas White Matte 1" Hex Mesh

For packaging information, please contact your local Arizona Tile.

**DCOF rating is a measurement of a tile's frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.**

Please view actual material when making your selection, as the images on this page are only representative.
