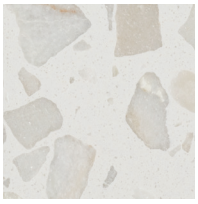
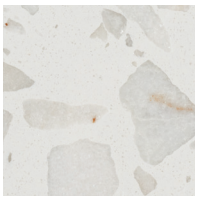
ARIZONA TILE

ICEBERG





PRODUCT TYPE
Agglomerate Marble

STOCKED FINISH
Polished

STOCKED SLAB THICKNESS
3/4" (2cm slab)

STOCKED SLAB SIZE
126" × 63"

ADDITIONAL STOCKED SIZE
24 × 24 × 1/2

RECOMMENDED USES
Commercial
Residential
Interior Countertops
Interior Wall
*Shower Walls
*It is recommended to have a soft joint on all inside joints to allow for expansion.

Iceberg is a polished agglomerate marble comprised of a white resin background embedded with large chunks of grey marble. The look of this agglomerate marble adds vintage flair to any installation.

The term "agglomerate" means to collect or gather into a cluster or mass. In production, chunks of marble are tumbled to round the sharp edges. The marble chunks are then combined with resin and placed into a large rectangle tank to be cured into a block. The block is later cut into 3/4 inch slabs or 1/2 inch thick slabs to be cut into tile. As a product containing natural stone, it is recommended that it be sealed to extend its longevity.

Beyond interior countertops, agglomerate slabs can also be used on interior and shower walls.

Iceberg is also available in a 24 × 24 × 1/2 tile.
