Interior Wall
Shower Walls

*Not recommended for fireplaces. For installation near stoves, cook tops or similar heat sources, installer must follow appliance manufacturer's recommended clearance and spacing requirements, as well as thermal insulation requirements.

DTV-Storm features a light grey background with medium to dark grey markings that blend in a soft, cloud-like pattern, creating an appearance similar to a natural marble.

Della Terra™ Vitre is a glass composite slab line that reflects a near zero presence of crystalline silica. It's made using a glass-based mixture in which crystalline silica associated with recycled glass may be present. Della Terra™ Vitre surfaces are ultra-durable, resistant to scratches and chipping, plus their dense composition make them highly resistant to staining. Della Terra™ Vitre should be used for interior surfaces only. During fabrication, it is recommended to use denatured alcohol rather than acetone to clean quartz slabs. However, if acetone is used, it should first be applied with a rag, wiping on and off immediately.
