Shower Walls

Bliss is a polished granite quarried from a bedrock quarry. This granite has granular mineral patterning combining a color combination of white, cream, taupe and black. While this granite has a fairly consistent blend of these different minerals it is to be expected to have some mineral concentrations. Since Bliss does not have a surface resin, it can be used in full sun installations. As a natural stone product, it is recommended that it be sealed to extend its longevity.

STOCKED SIZE

3/4" (2cm slab)

1-1/4" (3cm slab)
