

**PRODUCT TYPE**

Granite

**ORIGIN**

Brazil

**STOCKED FINISH**

Satin

**RECOMMENDED USES**

Commercial

Residential

Interior Countertops

Exterior Countertops

Interior Wall

Exterior Cladding

Fireplaces

Shower Walls

Steam Shower

New Romano Satin is quarried from a bedrock quarry in Brazil. This granite is a nice neutral light grey background with darker grey veining and includes minerals such as Mica, Feldspar and Quartz. New Romano is quite versatile and in addition to all the indoor application options, it can be used in outdoor applications as well. Due to the qualities of the stone, the slabs are book-matched; meaning slab one and slab two will be cut and finished to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. As a natural stone product, it is recommended that it be sealed to extend its longevity.
