DT-Black Tempest Polished is a Della Terra® Porcelain Slab. Our Della Terra® Porcelain Slabs are a technologically advanced, innovative surface that are available in a wide variety of colors and patterns. The smoky black background is interspersed with light grey to white wispy diagonal movement that mimics the layering found in natural granite.

This slab includes A and B versions which are book-matched; meaning slab A and slab B create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. To implement this flow of pattern, slab A and B should be from the same production lot. Because this material is a porcelain product, minimal maintenance is required. This product is suitable for residential and commercial applications. The durability of porcelain, including it being resistant to UV light, heat and frost, makes this slab ideal for exterior use.
