DT-Limestone Greige Matte is a Della Terra™ Porcelain Slab. Our Della Terra™ Porcelain Slabs are a technologically advanced, innovative surface that are available in a wide variety of colors and patterns. The DT-Limestone Greige Matte slab has an overall neutral, taupe grey coloration with mottled areas of grey and white. This has similar patterning to a natural limestone but with the durability of porcelain.

Because this material is a porcelain product, minimal maintenance is required. This product is suitable for residential and commercial applications. The durability of porcelain, including it being resistant to UV light, heat and frost, makes this slab ideal for exterior use.
