DT-Travertino Honey Matte is a Della Terra® Porcelain Slab. Our Della Terra® Porcelain Slabs are a technologically advanced, innovative surface that are available in a wide variety of colors and patterns. As the name indicates, DT-Travertino Honey Matte has the look of veining and pitting which is typically found in natural stone travertine. The overall neutral medium tone is a blend of beige and tan with touches of grey that add interest without adding too much color or contrast.

Because this material is a porcelain product, minimal maintenance is required. This product is suitable for residential and commercial applications. The durability of porcelain, including it being resistant to UV light, heat and frost, makes this slab ideal for exterior use.
