

**PRODUCT TYPE**

Quartzite

**ORIGIN**

Brazil

**STOCKED FINISH**

Satin

**RECOMMENDED USES**

Commercial  
Residential

**STOCKED SIZES**

3/4" (2cm slab)

Interior Countertops  
Interior Wall  
Fireplaces  
Shower Wall

Poplar White Satin quartzite is from a bedrock quarry in Brazil. This beautiful cream and grey toned stone has gold veining throughout. This is a metamorphic stone which evolved from a sandstone due to extreme heat and pressure. Due to the qualities of the stone, the slabs are book-matched; meaning slab one and slab two will be cut and brushed to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern.

As a natural stone product, it is recommended that this be sealed to extend its longevity. This quartzite has a more open structure and therefore needs a sealer that is designed to penetrate properly to ensure that the stone is sealed. Arizona Tile suggests using three coats of Miracle Sealants 511 Porous Plus or Dry Treat Premium Impregnating Sealer for the initial sealing, which needs to be done at the time of installation and applying one coat of sealer every six months moving forward. It's also recommended to seal all cut edges before installation. This will help prevent water and oils from penetrating into the stone around sinks, faucet holes, ovens and any seams.
