

# ARIZONA TILE

# NEW CALEDONIA

## PRODUCT TYPE

Granite

## ORIGIN

Espirito Santo, Brazil

## STOCKED FINISH

Polished

## GEOLOGICAL ERA

Proterozoic  
(544-2500 million years ago)

## STOCKED SIZES

3/4" (2cm slab)  
1-1/4" (3cm slab)

## RECOMMENDED USES

Commercial  
Residential  
Interior Countertops  
Interior Wall  
Fireplaces  
Shower Walls  
Steam Showers

New Caledonia is quarried from a bedrock quarry in Espirito Santo, Brazil. This particular granite has a very consistent grain structure between slabs. Due to its consistency, it is ideal for projects such as wall cladding, large floors and kitchen countertops. Because the grain structure is so tight in this granite, there is no surface resin applied during production. As a natural stone product, it is recommended that it be sealed to extend its longevity.

This granite is also known as Ocre Itabira or Silver Brown.
