Crest is a quartz with a greige background and consistent clear and brown detailing throughout. Its static yet subtle pattern gives Crest slight dimension, while remaining neutral enough to be used in a variety of installations. The Della Terra® Quartz, a natural quartz surface, is a blend of nature and technology. It consists of up to 94% quartz, one of the hardest minerals in nature. Color controlled quartz is blended together with technologically advanced polymers. Della Terra® Quartz surfaces are ultra durable, resistant to scratches and chipping, plus its dense composition makes it highly resistant to staining. Della Terra® Quartz should be used for interior surfaces only. During fabrication, it is recommended to use denatured alcohol rather than acetone to clean quartz slabs. However, if acetone is used, it should first be applied with a rag, wiping on and off immediately.
