

# ARIZONA TILE

# ICEBERG

## PRODUCT TYPE

Agglomerate Marble

## STOCKED FINISH

Polished

## STOCKED SIZE

24 × 24

## STOCKED SLAB

126 × 63 × 3/4" (2cm Slab)

## RECOMMENDED USES

Commercial

Residential

Interior Floor

Interior Wall

\*Shower Walls

\*It is recommended to have a soft joint on all inside joints to allow for expansion.

Iceberg is a polished agglomerate marble comprised of a white resin background embedded with large chunks of grey marble. The term "agglomerate" means to collect or gather into a cluster or mass. In production, chunks of marble are tumbled to round the sharp edges. The marble chunks are then combined with resin and placed into a large rectangle tank to be cured into a block. The block is later cut into 3/4 inch slabs or 1/2 inch thick slabs to be cut into tile. As a product containing natural stone, it is recommended that it be sealed to extend its longevity.

For proper bonding, use Custom Building Products Prolite White, 30LB mortar or Laticrete-254 Platinum White thinset for large format agglomerate marble tiles. Proper thinset coverage is also necessary and in some cases, back buttering of the tile may be required.
