Ribbon Mesh

Calacatta Gris is a marble tile that is also part of the Completa Series (CS). It is a white marble with very faint, warm grey details dispersed throughout each piece and it compliments modern and traditional installations alike.

Because this series is comprised of natural stone, there will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color.

When installing white marble, you must use a white thinset; using grey thinset will leave trowel lines and could stain the marble. As natural stone products, it is recommended that these be sealed to extend their longevity. For proper bonding LFT/LHT mortar for large format and heavy tiles should be used when installing tiles with dimensional length greater than 15 in. and rectangular shape and plank tile per industry standards. Proper thinset coverage is also necessary and in some cases back buttering of the tile may be required.

SIZE	SF/PIECE	PIECES/BOX	SF/BOX	UNITS/PALLET	SF/PALLET
Honed 4 × 16 × 3/8	0.4444	20	8.888	640	284.416
