Rhomboid Mesh

CS-D Blue Honed

Ribbon Mesh

D Blue is a marble tile that is part of the Completa Series (CS). It is a rich blue marble with very faint, white details dispersed throughout each piece. Its striking blue tone creates a bold statement in any installation. Because this series is comprised of natural stone, there will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. When installing white marble, you must use a white thinset; using grey thinset will leave trowel lines and could stain the marble. As natural stone products, it is recommended that these be sealed to extend their longevity.
