Haisa Blue Honed, quarried from a bedrock quarry, is a cool grey toned marble with a honed finish. It is a softer stone, and may be susceptible to scratching or abrasion.

Piece to piece variation in shade or color are inherent in all-natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As a natural stone product it is recommended that it be sealed to extend its longevity and it is also recommended that the stone be sealed before grouting.
