Rhomboid Mesh

CS-Sky Blue Honed
Ribbon Mesh

Sky Blue is a marble tile that is part of the Completa Series (CS). Its is a faint blue marble with very subtle white details scattered throughout each piece. Its slight blue hue gives it a luxurious, ethereal appeal. Because this series is comprised of natural stone, there will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. When installing white marble, you must use a white thinset; using grey thinset will leave trowel lines and could stain the marble. As natural stone products, it is recommended that these be sealed to extend their longevity.
