Commercial
Residential
Interior Floor
Interior Wall
Exterior Cladding
Fireplaces
Shower Walls
*Shower Floors
*Multi Finish Modella Mesh only

Terra Nova is a marble tile that is part of the Completa Series (CS). It is a neutral toned, cream marble with subtle organic details throughout. Its clean yet rich organic details make it neutral enough to be used in a variety of installations.

Because this series is comprised of natural stone, there will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color.

When installing white marble, you must use a white thinset; using grey thinset will leave trowel lines and could stain the marble. As natural stone products, it is recommended that these be sealed to extend their longevity.
