CS-Skyline Multi Finish 2 x 2 Hex Mesh & Honed 12 x 24

The Completa Series (CS) is a collection of natural stone tile, trim and mesh mount designs offered in six color collections each with 12 or more mesh mount variations. Each mosaic variation is artistically crafted with exclusive materials strategically arranged to display the material in unique and breathtaking designs. Shown here is CS-Skyline which is a warm toned marble with linear variations of cream, taupe and brown throughout. Its striking color variations add visual interest while remaining neutral enough to be used in a variety of designs. A mesh backing is adhered to the back of each decorative mesh mount product. Because this series is comprised of natural stone, there will be noticeable variations in color and movement between pieces. Therefore, it is important and recommended that a range of this product be viewed before finalizing a purchase. Piece to piece variation in shade or color are inherent in all natural stone products; therefore, when installing natural stone tile, it is recommended to mix tiles from several boxes at a time during installation to achieve the best range of color. As natural stone products, it is recommended that these be sealed to extend their longevity. When installing any of the options with white stone, you must use a white thinset. Using a grey thinset will leave trowel lines and could stain the stone.

Product selection varies at each location. Please contact your local Arizona Tile for product availability.  
Please view actual stone when making your selection, as the images on this page are only representative.
